

Star Mast Stands

It's nice to have a set of mast stands to set your mast on when working on it. You can make a simple tripod set using pine or fir. Two of the legs pivot on a bolt that also holds a hinge that is connected to the third leg. The three legs are held together at the bottom by a thin piece line. Here's a photo and list of the materials and tools you will need. If you have any questions just let me know.

Material list

- (4) 3x1x44" - buy (2) 8'
- (2) 3x1x36" - buy (1) 6'
- (2) 1/4"x2" bolt
- (2) 1/4" lock nut
- (6) 3/4" #8 flathead screws
- (2) 3" hinge
- (1) 9' 1/8" line

Tools

- Drill
- 1/4" bit
- 3/16" bit
- 1/8" bit
- Sandpaper
- (2) wrench's
