

Quantum Melges32 Sail Wind Ranges

Sail	TWS	Cloth	Notes
Mainsail	All	Fusion MR 7600	AP class main, 5 RBS Carbon & Glass Battens, Vision window, Jib Leech Window, Draft Stripes
Light Jib	0-11	Fusion MR 7600	Max sized, used in lighter winds until boat becomes overpowered
Medium Jib	11-20	Fusion MR 7600	Max sized, higher DPI than Light and flatter shape, full entry
Medium/Heavy Jib	17-22	Fusion MR 7600	Slightly smaller than max size with leech hollow for windy venues
Heavy Jib	20+	Fusion MR 7600	Class small jib used when main is breaking up & boat is hard to keep balanced upwind
A1.75 Spinnaker	0-8 & 20+	AIRX-650	4 sq m under max size, class bow up reacher for light conditions & breeze on
A2.5 Spinnaker	10-20	AIRX-650	AP max sized class runner, best bow down soaker
A2.5+ Spinnaker	0-9 & 17+	AIRX-650	AP max sized class runner, best bow up spinnaker

Spinnaker Notes: We recommend the A2.5 as the AP Runner and then your choice on the A1.75 or A2.5+ max sized class spinnakers as your bow up sails for very light and heavy winds.

Jib Notes: Class rules allow for 2 max sized jibs per event. Many top teams check in the Medium/Heavy Jibs for very windy events.
